Nano- and Chemical
Engineering Day

—

October 27th, 2021

Help students find their niche at NChE

Nano- and Chemical Engineering Day, Fall 2021

Overview

What is Nano- and Chemical Engineering (NChE) Day?

A graduate school fair, featuring campuses with programs for nano- and chemical engineers.

Date

Wednesday, October 27th, 2021
6-8pm, Pacific Time

Location

Zoom Meeting

Each graduate school will have approximately 30 minutes to give a small information session, and then take questions from the audience. Schedule of sessions will be released at a later date.

Event Organizers

The American Institute of Chemical Engineers (AIChE) and the NanoEngineering and Technology Society (NETS) at UC San Diego

Cost

The graduate school fair is completely free to attend!

Nano- and Chemical Engineering Day, Fall 2021

Frequently Asked Questions

Why is the event virtual?

We made the event virtual to increase accessibility for students and company representatives, and as a precaution against COVID-19.

What student demographics can we expect?

The event is open to all majors, but we anticipate that most students will be nano- or chemical engineers, along with a few other engineering and science majors.

Most students will be undergraduate juniors and seniors, though some freshmen and sophomores might also attend.

Does my university need to pay to participate?

Our career fair is completely free to attend!

How many representatives can I bring?

We do not have a limit on how many representatives can attend from each school; bring as many as you feel would be beneficial!

Do I need to be there the whole time?

No: you only need to be at the event during your school's scheduled time, though we encourage you to arrive early in order to become situated at the meeting, be made a host in the Zoom meeting, etc.
